

CR Insights[™]

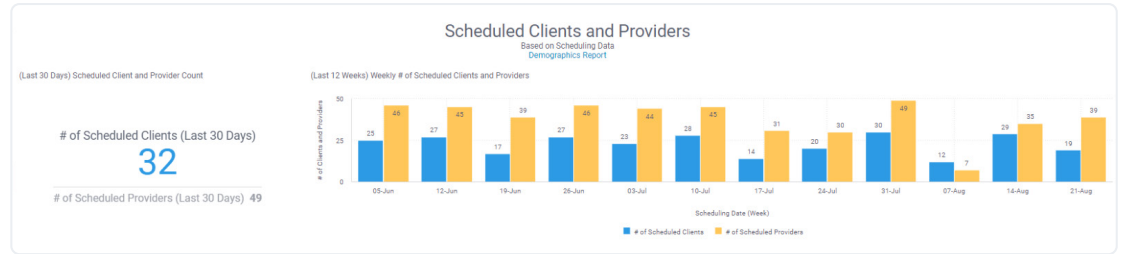

Advanced BI

Understand and elevate your practice with automated business intelligence dashboards and reports across financial, operational, clinical, and staffing domains.

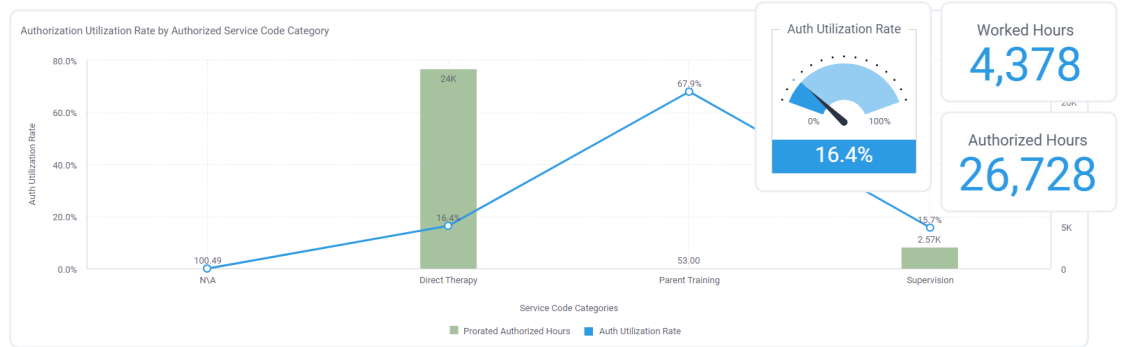

CR Insights: Advanced BI caters to all users within your organization, from frontline staff to executives, offering valuable insights tailored to your role. These insights empower informed decision-making and streamline workflows for practice optimization and better accountability.

Here's a sneak peek into some of the many reports you gain with Advanced BI

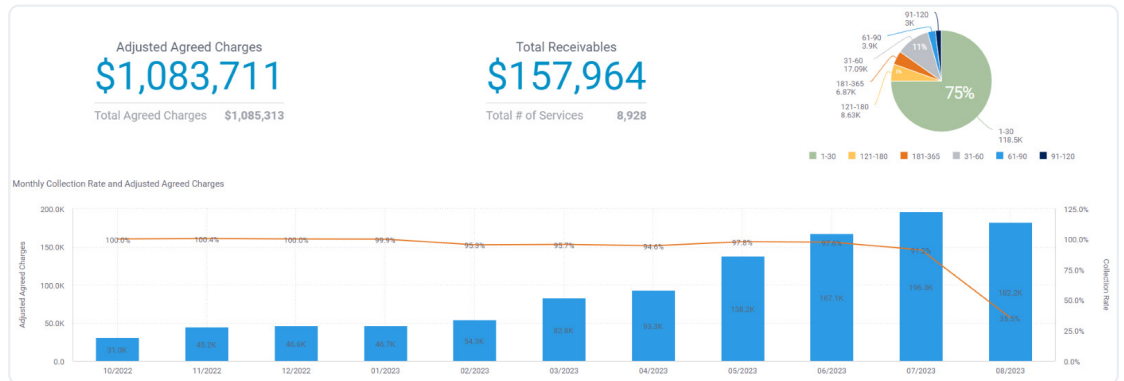

To learn more, please visit centralreach.com/products/insights or contact your Account Manager.

Operations Pulse Check Report: Monitor the operational health of your practice across 6 key domains: Scheduled Clients and Providers, Cancellations, Timesheet Conversion, Converted Service Hours, Authorizations, and Supervision.

Authorization Utilization, Hour Based Report: This dashboard monitors evenly distributed authorized hours across time to uncover utilization of active hour-based authorizations during any timeframe of the authorized period. Identify which authorizations are being under- or over-utilized. View the authorization utilization trend on a weekly and monthly basis by location, authorization manager, and/or client.

RCM Analysis Report: Analyze collection rate with agreed charges along with payments and receivables over time, by payor, and by location. Keep track of payments, bad debt, and sales adjustments posted. Monitor receivables by AR aging bucket.
